Expanded technology park

Collection Urban + Trees

The Urban + Trees collection is a solution tailored to the needs of modern city parks. The combination of play functions for children and adults is an innovative approach to play and integration between generations.

Fun

Great fun for many users at the same time. The advantage of the Urban + Trees collection is the large number of play functions designed in a small space.

Design

Modernist design to fit the architecture of contemporary housing estates.

Modern design & highest quality materials

polycarbonate panels

HDPE plates

non - slip HPL platforms

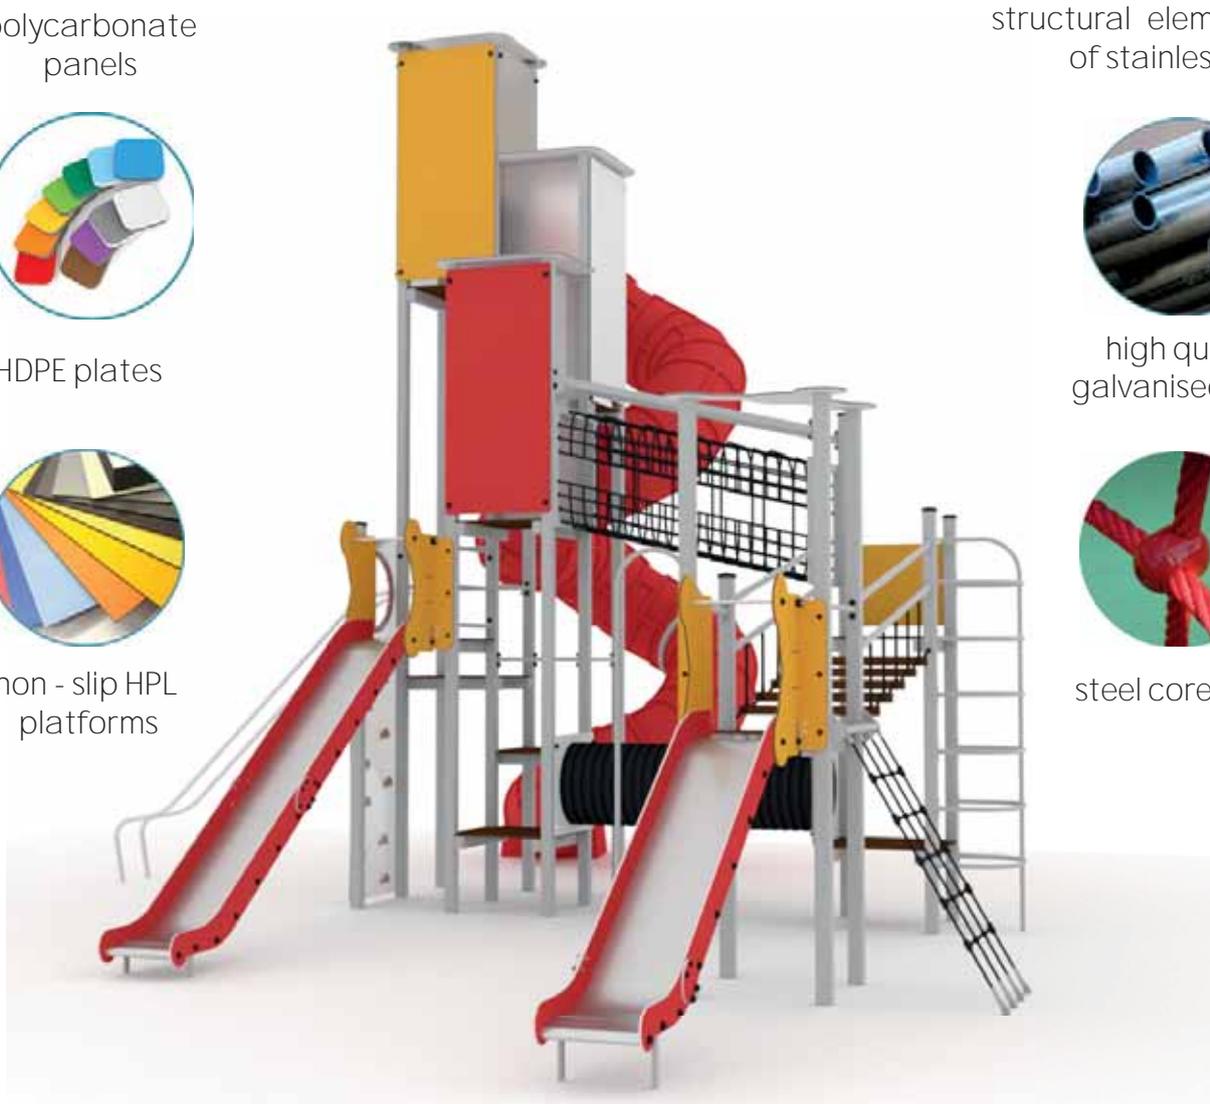

structural elements made of stainless steel

high quality galvanised steel

steel core ropes

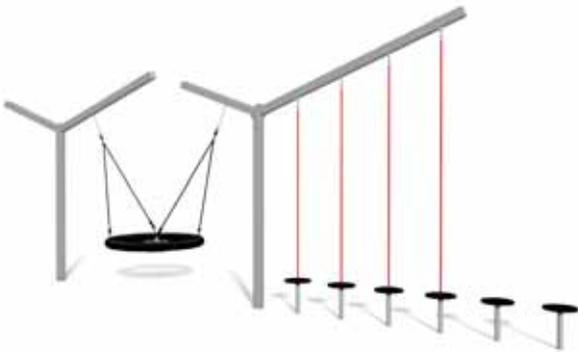

The new **Urban + Trees** collection is part of contemporary dynamics of modern cities. High, multifunctional devices provide an unforgettable experience for users.

Complementary devices **Trees** are an interesting idea to combine fun and aesthetic functions. We believe that, a playground is not only fun but also great design.
