

Why RECO

SATERNUS

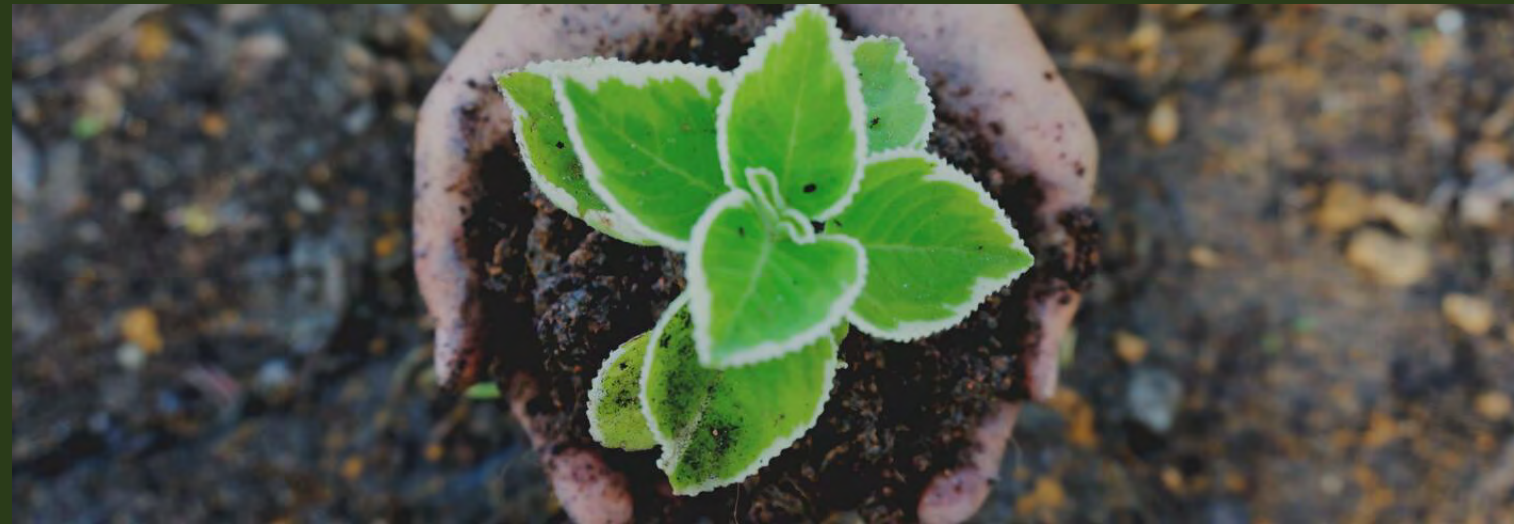

RECO

Offer 2021

### **RECO Collection**

The new RECO collection is our answer to the needs of a changing world in the field of ecology. The devices in the RECO collection are made of 100% recycled material.

### **Fun**

Great fun for many users at the same time.

### **Design**

Modernist design to fit the architecture of contemporary housing estates.

## MODERN DESIGN & HIGHEST QUALITY MATERIALS

The new RECO collection is part of contemporary dynamics of modern cities. Multifunctional devices provide an unforgettable experience for users.

Modern composite material combined with HDPE is an interesting alternative to classic solutions used on playgrounds.

# What makes **composite material combined with HDPE** unique?

---

Does not require maintenance

Chemical and weather resistant

High durability, estimated at 40 years of use

Waterproof

Resistant to oils, brines, acids, and salt water

Does not conduct electricity

Color resistant to discoloration thanks to the UV filter

It is suitable for reprocessing through the recycling process

It does not split, which guarantees safe use

Environmentally friendly - non-reactive with soil or water

# What are the **benefits**?

---

## **TIME-SAVING**

simple installation with all available technologies

## **NO MAINTENANCE COSTS**

no maintenance required, 15-year warranty

## **DURABILITY OF THE STRUCTURE**

resistant to weather conditions, chemicals and difficult to set on fire

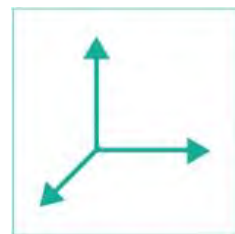

## **SAFE TO USE**

safety ensured by very favorable technical parameters that traditional materials do not have

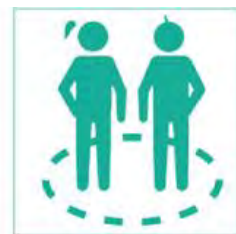

## **ENVIRONMENTAL PROTECTION**

by using 100% plastic materials for production

## RECO Playtower 1.0
